OVALE 200

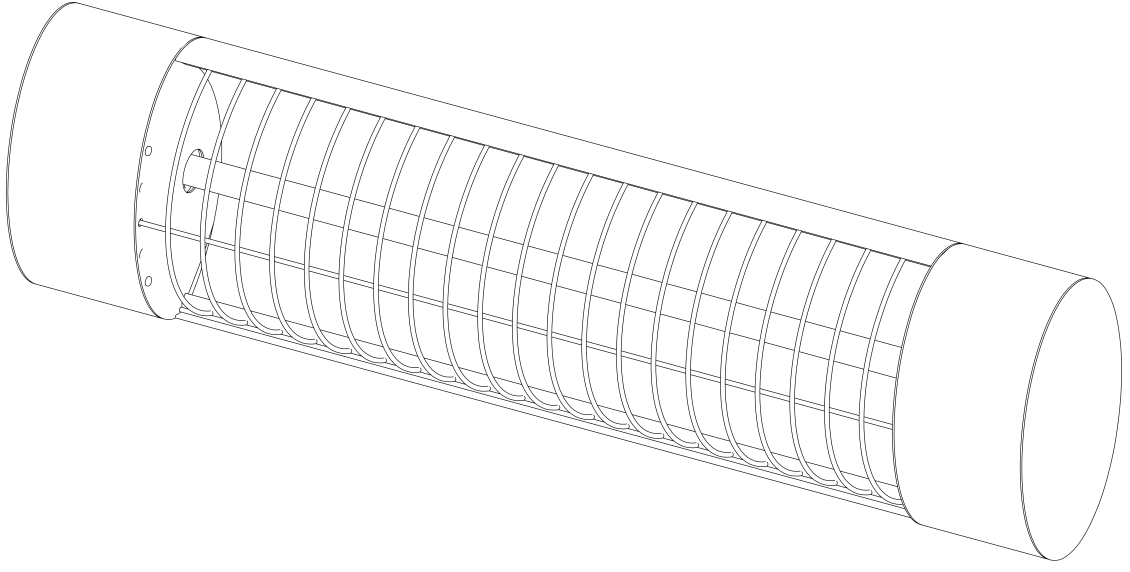

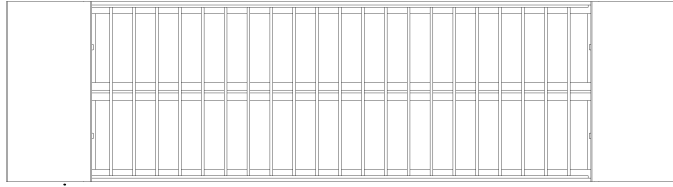

Truly in a league of its own, Ovale features a uniquely optimized and elegant design. Engineered to deliver maximum performance in both indoor and outdoor environments, it seamlessly blends exceptional energy efficiency with premium comfort to elevate your everyday life.

A standout feature of this state-of-the-art carbon infrared heater is its robust IP44 waterproof rating, ensuring flawless and reliable operation even in the harshest conditions. Equipped with an advanced carbon infrared filament, Ovale provides gentle, ambient warmth without emitting harsh light that might strain your eyes. Furthermore, this premium filament boasts an impressive lifespan of 12,000 hours—vastly outperforming standard alternatives on the market.
